In case of not paying social contributions within the period prescribed, the contributor (the tax agent having the obligation to calculate and transfer social contribution for them) shall pay a penalty for each day of default in the amount of 0.04 per cent of the overdue sum of social contributions.

The penalty provided for by this part shall apply to overdue sums of social contributions for the whole period of default, but for not more than 730 days.

Penalties charged for failure to pay social contributions or for late payment thereof shall be transferred as a funded allocation to the registrar of contributors, at the expense of which units of the compulsory pension fund to which funded allocations are made for (for the benefit of) the contributor as of that moment shall be acquired.

The compulsory pension fund units of the contributor at the expense of the charged (paid) penalties shall be determined based on the proportion of the amount of the social contributions calculated for the given contributor in the total amount of the social contributions deducted (paid) from the income of the contributors (including the income revealed through inspections).

2. The amounts of social contributions not deducted in time (or under-deducted amounts) according to the provisions of this Law (including when concealing or underreporting an object for calculating social contributions referred to in part 3 of this Article) may be deducted from the contributor by the tax agent as prescribed by the legislation of the Republic of Armenia, for not more than the last three years.
3. In case of concealing or underreporting an object for calculating social contributions, the amount of social contributions calculated (by the tax authority) against the object for calculating social contributions which has been concealed or underreported shall be charged from the person paying social contributions (tax agent) as prescribed by this Law.

Failure to report an object for calculating social contributions in the social contributions calculation reports submitted to the tax authority, the underreporting thereof or reporting false data on the absence of an object for calculating social contributions shall be deemed to be concealing or underreporting an object for calculating social contributions.

Persons paying social contributions (tax agents) and hired workers (tax agents) shall, within 10 days after the tax authority submits the inspection act, pay the amounts of social contributions from the object for calculating social contributions which has been concealed or underreported, as well as the penalties calculated by the inspection act in accordance with part 1 of Article 71 of this Law. No penalties shall be calculated for the mentioned 10 day period against the amounts of social contributions imposed the

inspection act. In case the amounts of the social contributions imposed by the inspection act are not paid or are paid partially after the end of that period, the mentioned period of 10 days shall not be taken into account when resuming the calculation.

4. In case of delay from the period prescribed for the payment of social contributions, the tax authority shall adopt a decision on charging the overdue amount from the person liable for calculating and transferring (charging) social contributions in accordance with this Law (hereinafter referred to as “person paying social contributions”) and shall duly notify the latter thereof.

Before the decision on charging the amount becomes unappealable, custody may be imposed on the property of the person paying social contributions. To ensure fulfilment of liabilities with regard to incomes controlled by the tax authority, custody shall be imposed by the tax authority in cases and in accordance with the procedure prescribed by the Tax Code of the Republic of Armenia. In case the decision on charging the amount by the person paying social contributions becomes unappealable, the amount shall be charged as prescribed by Chapter 13 of the Law of the Republic of Armenia “On fundamentals of administrative action and administrative proceedings”.

In case the person paying social contributions repays its liabilities during the process of charging, the decision on charging the amount shall be repealed and the process of charging shall be terminated.

For the purpose of charging the liabilities not fulfilled by the person paying social contributions with regard to social contributions controlled by the tax authority, the tax authority shall be entitled to obtain, under a contract on assignment of the right to claims against the debtor (debtor), the right to claims belonging to the person paying social contributions and to direct the amounts received at the repayment of the liabilities of the person paying social contributions.

Moreover, the right to claims shall be transferred to the tax authority to the extent of the liabilities (including arrears and penalties calculated as prescribed by the law of the Republic of Armenia with regard thereto) existing at the moment of the transfer of the right, and when implementing the claims, the liabilities shall be recalculated taking into account the time limits prescribed by the law of the Republic of Armenia for calculation of penalties with regard to social contributions.

As a measure to secure the fulfilment of liabilities with regard to social contributions controlled by the tax authority, the tax authority and the person paying social contributions may conclude a contract of pledge as prescribed by the Civil Code of the Republic of Armenia. In case of conclusion of a contract of pledge, a schedule for gradual repayment of liabilities shall be drawn for the purpose of repaying the liabilities.

5. The provisions of this Law shall not extend to the relations of paying social contributions by an international organisation for hired workers in employment relations (performing official duties) with the employer that is an international organisation, unless otherwise provided for by international agreements of the Republic of Armenia.
